Report: Although Gary Southam had to go in goal again, the addition of Darren Rorie to our defence meant we were fielding one of the strongest out-field line-ups individually that the club has ever put out (we even had four good substitutes!) The win was far more emphatic than the scoreline suggests, as Turnford Rangers only had 3 shots on target, and the fact that we won so comfortably without the teamwork and passing being particularly good bodes well for the rest of the season as that aspect of our game is bound to improve.
